

TEST NAME :

- 1 - Appearance
- 2 - Connector engage and disengage force
- 3 - Reverse insertion between housings
- 4 - Reverse insertion between terminal to housings
- 5 - Engage Force between terminal to housings
- 6 - Strength of HSG lock
- 7 - Terminal Retention Force
- 8 - Crimp Strength
- 9 - Voltage Drop
- 10 - Insulation Resistance
- 11 - Dielectric Withstand Voltage
- 12 - Connector Solderability
- 13 - Cold and hot temperature shock test
- 14 - Heat Resistance
- 15 - Temperature & Humidity Constant
- 16 - Temperature & Humidity Cycle
- 17 - Dust Bombardment
- 18 - Sulfur test
- 19 - Salt Spray Test
- 20 - SHOCK Test
- 21 - Complex environment endurance test
- 22 - Resistance force of reflow soldering
